

SUPPORTED STRUCTURES

POP UP EXHIBITION BY ANASTASIA FAINBERG

The exhibition entitled "Supported Structures" is a one-day showcase of sculptural installations created by Anastasia Fainberg.

Anastasia's practice includes sculpture, installation, and photography, and is centered around a reassessment of the limitations of the material realm. In this project the artist employs material structures, including man-made objects such as bread or pastries and natural objects like flowers, as a nostalgic, melancholic and also recuperative act of reflection about home. Creating sculptures inspired by Alexander Calder's "stabiles" Anastasia uses bread as a foundation to talk about the feelings that connect us with home such as hospitality, comfort, support, warm, freedom, safety, confidence and energy.

The exhibition is complimented by photoprints edition of the exhibited works.

ARTNOW is a curatorial project of art critic **Polina Dobrogaeva** and art historian **Anastasia Shamshurova**. The main focus of ARTNOW is professional exhibition directing, art advising, and artists promotion. Projects of ARTNOW team aim to promote young artists, to involve and connect different art communities, and to expand the boundaries of understanding contemporary art.
